

OLMVO

Community life should start with what the person actually wants.

olmvo.com/intro

OLMVO helps young adults with intellectual and developmental disabilities pursue more of the community participation they choose - with support that follows their lead.

WHAT OLMVO IS

Members choose ordinary community activities they actually want to experience. OLMVO helps connect them with paid Community Partners who provide nonclinical participation support without taking over the experience.

HOW IT WORKS

1. CHOOSE

Member identifies an activity or community goal that matters to them.

2. CONNECT

OLMVO helps the member review potential Community Partner matches and support options.

3. EXPERIENCE

The member participates in an ordinary community setting with support that follows their lead.

4. REFLECT

A brief check-in captures whether the Experience matched what the member wanted and what support helped.

ATLANTA PILOT AT A GLANCE

~20

members

18-30

age range

4

paid Experiences

~12 weeks

pilot window

WHAT MAKES IT DIFFERENT

- **Choice first**

The member defines what meaningful community participation looks like.

- **Support, not control**

Community Partners are paid nonclinical supports - not therapists, caregivers, or paid friends.

- **Ordinary community settings**

Experiences happen in the places people actually live, learn, socialize, recreate, and belong.

- **Evidence matters**

The pilot is being designed to measure the gap between participation wanted and participation experienced.

WHERE OLMVO IS NOW

- Pilot funding and sponsorship
- Research protocol and evidence base
- Community Partner recruitment and training
- Technical QA and disability-led accessibility/belonging review
- Community locations, transportation, safety, privacy, and launch operations

WAYS TO HELP

Research • Funding & sponsorship • Disability/community partnerships • Community Partner referrals • Product testing • Accessibility & belonging review • Introductions
